| Introduction to Translation | UYG109 | 1.Semester | 2+1          | 3         | 5    |

This course aims to introduce students to the history, basic norms and theories of translation science. After a proper introduction to the history of translation, students develop a perspective on translation theories. Students are expected to develop a deeper perspective on the translation process and the translation that occurs.

| Course  | Code                        | Semester                       | T+A                             | <b>N.Credits</b>          | ECTS                     |  |  |

| Translation Theories | UYG203 | 3.Semester | 3+0          | 3         | 4    |

The aim of this course is to relay the students different approaches and shools of thought in the field of translation theories in chronological order. How the mentioned theories developed and changed, and their effects on translation studies as an autonomous science is focused in this chronological development. It is aimed to make a connection between different translation theories in the light of the discussed theories.

| EU-Turkey Business Relations | UYG227 | 3.Semester | 3+0          | 3         | 3    |

The objective of this course is to provide a comprehensive understanding for students about the political and economic development of the EU in relation to Turkey. In this course, EU – Turkey relations since 1963 will be reviewed. In this context, the Ankara Agreement, Additional Protocol and the decision of the Customs Union would be elaborated on. Additionally, Turkey's harmonization with common policies and reforms which have been and will be made on the way of Turkey's full membership to the EU will be discussed.

This course is designed to familiarize students with the translation of medical texts. To this end, students read a variety of Turkish texts in different fields of medicine and discover the terminology used. Students explore the norms that operate in Turkish medical texts and make use of this knowledge in the decision-making processes of their translations.

| Translation Support Systems | UYG230 | 4.Semester | 3+0          | 3         | 3    |

The aim of this course is to familiarize students with information technology designed for translation. One or some of the new technological support systems are presented in class in order to make translation work easier. Also, students learn and practice how to use TRADOS translation software in detail and translate different text with different formats such as "word," "html," and "pdf" by using TRADOS.
